## # About

**Experienced Full Stack Web Developer** with over **4 years** of hands-on experience in building responsive, high-performance web applications. Known for writing **clean, maintainable code** and creating user-centric solutions that combine functionality with intuitive design.

A **quick learner** with strong **analytical thinking** and a **problem-solving mindset**. I bring a **collaborative and friendly personality** to every team I join, always open to feedback and eager to **share knowledge**. I take **ownership** of my work, stay **curious**, and continuously strive to **grow** both professionally and personally. Passionate about building **products that not only work seamlessly** but also offer a **smooth and enjoyable user experience**.
